

All about the Titanic

Joshua.

We will tell you all about the Titanic and were it was going and how it sank.

The Titanic Sinking

The Titanic sank in the North Atlantic Ocean roughly 400 miles off the coast of Newfoundland. It sank in 10 mins after it hit the Ice berg.

The Age of the Titanic

The Titanic was just over 2 months old when it hit an Iceberg on the night of April 15th 1912. It was going around the world.

The wreck age

The wreck of the Titanic was discovered in 1985 and lies 370 miles off Newfoundland around 12,500 feet below the surface. Dive into the water and see the Titanic Broce in person.

Interesting facts

The RMS Titanic was the largest passenger ship of its day measuring 26 metres (882 feet) in length.
