

# GOLF

Willow

Golf is a type of sports lots of people play if you use a driver you can hit it over 300 miles.

## Putter

A putter is a club used in the sport near the hole. You get a good grip on the club. You will use it in the hole. It is used for short shots.

## Driver!

The driver is the most biggest golf club you can hit it over 300 yards. And you need a big tee. If it is a little driver you need a medium tee.

## Holding a golf club

When you hold a golf club you put your right thumb on the club and then put your left thumb over your right thumb. This makes it more easy.

## I improve your putting

When you put probably shouldn't bend the wrist. And don't do pull swing. You step back alot. Wrap 2 elastic bands on the club. get it in the right direction you want.

This is elastic bands on a golf club
